Regional Office VI

Brgy. Tacas, Jaro, Iloilo City

## JALAU RIVER MULTI-PURPOSE PROJECT STAGE II (JRMP II)

### MESSAGE

Happy Dinagyang to all Ilonggos!

As we celebrate this annual fiesta in honor of Sr. Sto. Niño, let us be reminded of our heritage and the importance of bringing culture and tradition together in attaining progress and development within our Province. The National Irrigation Administration, Region VI and Jalaur River Multi-Purpose Project Stage II join all the Ilonggos in this religious celebration as an act of unity and collaboration among us. Our aim to bring irrigation progress within the Province is only a part of the huge dream of making a rice self-sufficient Philippines. Let the drumbeats and the blessed Sr. Sto. Niño inspire us and join us together in building a stronger connection in support of all agricultural projects.

From your NIA Region VI and JRMP II Family, HALA BIRA ILOILO!

**GERARDO P. CORSIGA**  
Regional Manager A/  
Concurrent Project Manager, JRMP II

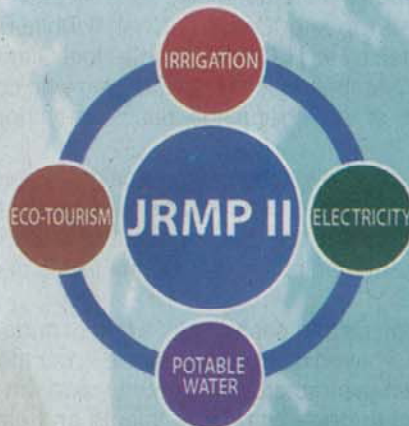

- Provides ample supply of water for irrigation
- Increase rice production from 142,000 to 300,000 metric tonnes
- Generates 17,000 labor force during construction
- Delivers 86,000 cu.m. of potable water to Iloilo City and surrounding Municipalities
- Generates 6.6 MW hydro-electric power supply
- Improves flood prevention
- Promotes Eco-tourism

### GENERAL OBJECTIVES

To sustain the region's self-sufficiency and contribute to the annual increase in the country's rice production target of 7.6 %

### PROJECT COMPONENTS

NIA and DENR Tie the Knot for Jalaur

To ensure the protection and sustainability of the Jalaur River in Calingog as main source of the proposed Jalaur River Multipurpose Project Stage II (JRMP II), the National Irrigation Administration Region VI and the Department of Environment and Natural Resources Region VI tied the knot through a Memorandum of Agreement (MOA) titled "Watershed Resource Management Agreement for JRMP II" last January 16, 2014 at the DENR Activity Center.

The MOA was signed by the Regional Executive Director, Jim O. Sampulna of the DENR and NIA Regional Manager, Gerardo P. Corsiga, witnessed by Concurrent Asst. Project Manager - JRMP II, Jesus L. Dato-on, PENRO Raul L. Lorilla and RTD Livino B. Duran.

The MOA was formulated for proper delineation of watershed areas between the two agencies and for a continuous collaboration of programs and projects for reforestation and development of local communities in Calingog.

### REHABILITATION AND MODERNIZATION OF EXISTING NATIONAL IRRIGATION SYSTEMS WITHIN THE JRMP II AREA

#### SUAGUE RIS DAM

1. Repair and rehabilitation of dam
2. Repair of dam structure and slope protection
